

MARIGOLD YELLOW

MARIGOLD – YELLOW PARI F1 HYBRID

Plant Habit	: Spreading type
Flower Color & Shape	: Yellow, Ball Shape
Flower Weight	: 12 - 14 gm
Harvest	: First harvest begins 50 - 55 days after transplanting
Disease tolerance	: Tolerance to Foot rot
Performance	: High yielding with good adaptability

MARIGOLD – VITHOBA YELLOW F1 HYBRID

Plant Type	: Moderate, More branching
Plant Height	: 95 - 100 cm
Flower Shape	: Ball shape, compact
Flower Color	: Lemon yellow, lustrous
Flower Weight	: 16 - 18 gm
First Harvest	: 50 - 55 days after transplanting
Disease Tolerance	: Tolerant to foot rot
Performance	: High yielding with good adaptability

MARIGOLD – TALL YELLOW F1 HYBRID

Plant Habit	: Early, vigorous, moderate
Plant Height	: 90 - 95 cm
Flower Color	: Yellow, compact, and lustrous
Flower Weight	: 14-16 gm
Harvest	: First harvest begins 40-45 days after transplanting
Disease tolerance	: Tolerance to Foot rot
Performance	: High yielding with good adaptability

MARIGOLD – SAVITRI YELLOW F1 HYBRID

Plant Type	: Spreading
Plant Height	: 65–70 cm
Flowe Shape	: Ball shape, compact
Flower Color	: Lemon yellow, lustrous
Flower Weight	: 16–18 gm
First Harvest	: 50–55 days after transplanting
Disease Tolerance	: Tolerant to foot rot
Performance	: High yielding with good adaptability

MARIGOLD – FULL TOSS F1 HYBRID

Plant Habit	: Spreading
Flower Color & Shape	: Yellow, Ball Shape, Compact
Flower Weight	: 14 - 15 gm
Harvest	: First harvest begins 50 - 55 days after transplanting
Disease tolerance	: Tolerance to Foot rot
Performance	: High yielding with good adaptability

MARIGOLD – KUBERA F1 HYBRID

Plant Habit	: Vigorous, with more branching growth
Plant Height	: 100 - 110 cm
Flower color	: Yellow
Flower Shape	: Ball shape, compact & Firm
Flower Weight	: 18 - 20 gm
First harvest	: 50 - 55 days after transplanting
Performance	: High yielding with good adaptability

MARIGOLD – MINCHU F1 HYBRID

Plant Habit	: Spreading
Flower Color & Shape	: Yellow in color, compact, firm
Flower Weight	: 10 - 11 gm
Harvest	: First harvest begins 45 - 50 days after transplanting
Performance	: High yielding with good adaptability
Disease Tolerance	: Tolerant to foot rot

MARIGOLD – SUPER BALL YELLOW F1 HYBRID

Plant Habit	:	Moderate type
Plant Height	:	65 - 70 cm
Flower Color & Shape	:	Deep Yellow lustrous, compact
Flower Weight	:	11 - 12 gm
Harvest	:	First harvest begins 45- 50 days after transplanting
Performance	:	High yielding with good adaptability

MARIGOLD – YELLOW UMBRELLA F1 HYBRID

Plant Type	:	Moderate
Plant Height	:	65-70 cm
Flower Shape	:	Round and compact
Flower Color	:	Yellow
Flower Weight	:	10 - 12 gm
Harvest	:	First harvest begins 45-50 days after transplanting
Disease Tolerance	:	Tolerant to foot rot
Performance	:	High yielding with good adaptability

MARIGOLD – MAX YELLOW F1 HYBRID

Plant Habit	:	Vigorous, moderate
Flower Color	:	Yellow, firm
Flower Shape	:	Semi round
Flower Weight	:	18 - 20 gm
Harvest	:	First harvest begins 40 - 45 days after transplanting
Disease Tolerance	:	Tolerance to Foot rot
Performance	:	High yielding with good adaptability

MARIGOLD – ASHOKA YELLOW F1 HYBRID

Plant Habit	:	Erect, thick branching
Flower Color & Shape	:	Yellow, Ball Shape
Flower Weight	:	20 - 22 gm
Harvest	:	First harvest begins 50 - 55 days after transplanting
Disease tolerance	:	Tolerance to Foot rot, Leaf Blight, Powdery mildew
Performance	:	High yielding with good adaptability

MARIGOLD – ASHOKA – 35 DAYS F1 HYBRID

- Plant Habit : Erect, Vigorous
- Flower Color : Deep Yellow, Firm
- Flower Shape : Semi Round
- Flower Weight : 18 – 20 gm
- Harvest : First harvest begins 45 – 50 days after transplanting
- Performance : High yielding with good adaptability

MARIGOLD – APPU F1 HYBRID

- Plant Habit : Very Vigorous, Medium Tall, erect plant
- Flower Color : Yellow in color, compact
- Flower Shape : Semi Round
- Flower Weight : 18–20 gm
- Harvest : First harvest begins 45 – 50 days after transplanting
- Disease tolerance : Tolerance to Foot rot
- Performance : High yielding with good adaptability

MARIGOLD – CHINNA F1 HYBRID

- Plant Habit : Vigorous, Medium tall
- Flower Color : Yellow compact
- Flower Shape : Semi Round
- Flower Weight : 18 – 20 gm
- Harvest : First harvest begins 40–45 days after transplanting
- Disease tolerance : Tolerance to Foot rot
- Performance : High yielding with good adaptability

MARIGOLD ORANGE

MARIGOLD – SUPER BALL ORANGE F1 HYBRID

Plant Type	: Spreading
Plant Height	: 65 - 70 cm
Flower Shape	: Ball shape, compact
Flower Color	: Deep Orange, lustrous
Flower Weight	: 12 - 14 gm
First Harvest	: 40 - 45 days after transplanting
Disease Tolerance	: Tolerant to foot rot
Performance	: High yielding with good adaptability

MARIGOLD – ASHOKA ORANGE F1 HYBRID

Plant Type	: Spreading
Flower Shape	: Ball shape, compact
Flower Color	: Deep Orange
Flower Weight	: 18 - 20 gm
First Harvest	: 50 - 55 days after transplanting
Disease Tolerance	: Tolerant to foot rot
Performance	: High yielding with good adaptability

MARIGOLD – RAJAHMUNDRY F1 HYBRID

Plant Type	: Moderate
Flower Shape	: Ball shape, compact
Flower Color	: Orange, lustrous
Flower Weight	: 12 - 14 gm
First Harvest	: 50-55 days after transplanting
Disease Tolerance	: Tolerant to foot rot
Performance	: High yielding with good adaptability

MARIGOLD – KABINI

F1 HYBRID

Plant Type	: Moderate, erect
Plant Height	: 100 - 110 cm
Flower Shape	: Ball-shaped, compact
Flower Color	: Deep Orange
Flower Weight	: 16 - 18 gm
First Harvest	: 50-55 days after transplanting
Disease Tolerance	: Tolerant to foot rot
Performance	: High yielding with good adaptability

MARIGOLD – SRIGANDHA

F1 HYBRID

Plant Type	: Erect, thick branching
Flower Shape	: Ball, compact
Flower Color	: Orange, lustrous
Flower Weight	: 12 - 14 gm
First Harvest	: 50-55 days after transplanting
Disease Tolerance	: Tolerant to foot rot
Performance	: High yielding with good adaptability

MARIGOLD – ORANGE KING

F1 HYBRID

Plant Type	: Erect, Multiple branch
Flower Shape	: Compact, ball shape
Flower Colour	: Orange lustrous
Flower Weight	: 18 - 20 gm
First Harvest	: 55 - 60 days after transplanting
Diseases	: Tolerance to Foot Rot Promising Hybrid
Performance	: High yielder with good adaptability

MARIGOLD – VITAL ORANGE

F1 HYBRID

Plant Habit	: Spreading type
Plant Height	: 90-100 cm
Flower Color	: Bright Orange
Flower Shape	: Ball-shaped
Flower Weight	: 12 - 14 grams
Days to Maturity	: 50-55 days
Special Features	: Highly adaptive; produces compact, uniform flowers

MARIGOLD – BAHUBALI F1 HYBRID

Plant Type	:	Moderate spreading
Plant Height	:	Medium
Flower Shape	:	Compact, ball shape
Flower Colour	:	Orange
Flower Weight	:	12 to 14 gm
First Harvest	:	60 - 62 days after transplanting
Diseases	:	Tolerance to Foot Rot

MARIGOLD – TALL ORANGE F1 HYBRID

Plant Type	:	Moderate spreading
Plant Height	:	90 - 95 cm
Flower Shape	:	Compact, ball shape
Flower Colour	:	Orange
Flower Weight	:	18 - 20 gm
First Harvest	:	52-55 days after transplanting
Diseases	:	Tolerance to powdery mildew & Foot Rot

MARIGOLD – BENGAL ORANGE F1 HYBRID

Plant Type	:	Moderate, erect
Flower Shape	:	Ball-shaped, compact
Flower Color	:	Deep Orange, lustrous
Flower Weight	:	12 - 14 gm
First Harvest	:	52-55 days after transplanting
Disease Tolerance	:	Tolerant to foot rot
Performance	:	High yielding with good adaptability

MARIGOLD – BAJARANGI F1 HYBRID

Plant Type	:	Spreading
Flower Shape	:	Ball-shaped, compact
Flower Color	:	Orange, lustrous
Flower Weight	:	12 - 14 gm
First Harvest	:	50-55 days after transplanting
Disease Tolerance	:	Tolerant to foot rot
Performance	:	High yielding with good adaptability
