

MAIZE - 909

F1 HYBRID

Plant Height	:	Average height of 255–260 cm
Leaves	:	Dark green in color
Average cob length	:	20 cm
Row count per cob	:	16 rows Each plant bears a single cob
Silk Color	:	Orange
Tassel Color	:	Pinkish white
Maturity	:	Starts from 120 days after sowing (DAS)
Season Suitability	:	Best suited for Kharif season

MAIZE - ASHOKA - 5353

F1 HYBRID

- * It is single cross hybrid
- * Cobs are sharp, deep orange color
- * Average plant height is 7 - 8 feet
- * Average Cob wt. is 300 grams
- * Average yield is 50 - 60 quintal/acre
- * Plant duration is 140 days
- * Ideal spacing is 16-18" x 8-9" (row to row x plant to plant)
- * Average plant population is 35000 plants per acre
- * Ideal season is rabi
- * It is a high yielder hybrid

FODDER MAIZE AFRICAN TALL

Plant Height	:	10–11 feet
Temperature Adaptability	:	Thrives in 20°C – 35°C
Harvest	:	First cut at 60–65 days (milky stage)
Green Fodder Yield	:	Approx 16 tons per acre
Special Feature	:	Highly suitable for green fodder with excellent biomass production
Seed Colour	:	White

FORAGE MAIZE - AS-210

F1 HYBRID

- * Height of the plant 300 cm
- * Leaves are dark green in colour,
- * length- 92–95 cm,
- * width- 10 cm
- * Stem girth is about 3.5 cm
- * Maturity 70–72 days
- * Green fodder yield is about 31–33 t/ha
- * This is mainly for fodder purpose
