

## PADDY - ASHOKA SUPER SONA (RNR - 15048)

Crop Duration	: 120–125 days
Plant Height	: Semi-tall
Head Rice Recovery	: >67%
Glycemic Index	: Low (51)
Disease Resistance	: Resistant to Blast
Recommended Seasons	: Kharif and Rabi
Special Features	: Non-lodging, high yielding

## PADDY - AS-135 (MTU - 1153)

Crop Duration	: 120 days (short duration)
Kernel Length	: 6.38 mm
Kernel Width	: 2.18 mm
L/B Ratio	: 2.95
Test Weight	: 23.5 grams
Disease & Pest Resistance	: Resistant to Blast and Brown Plant Hopper (BPH)
Special Features	: Non-lodging, short duration, high yielding
Adaptability	: Good adaptability across diverse regions

## PADDY - INDRAYANI

Crop Duration	: 125–130 days
Plant Height	: 110–115 cm
Panicle Length	: 15–18 cm
No. of Tillers per Plant	: 14–17
No. of Seeds per Panicle	: 250–300
Recommended Season	: Kharif
Special Features	: Non-lodging, high yielding
Adaptability	: Good adaptability across various agro-climatic conditions

## PADDY - AMOAN

Crop Duration	: 150 days
Kernel Length	: 5.42 mm
kernel Width	: 2.15 mm
L/B Ratio	: 2.52
Test Weight	: 19.4 grams
Disease & Pest Resistance	: Resistant to Brown Plant Hopper (BPH)
Special Features	: Non-lodging, high yielding
Adaptability	: Good adaptability across diverse agro-climatic conditions
